DETAILED ACTION***Response to Amendment***

The amendment filed June 10, 2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The specific location of the sensors in Fig. 1 is unsupported by the originally filed specification, as no specific locations of said sensors were disclosed.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

Claims 1-3,5,7,8,10-15 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Figure 3 discloses the transport pipe/pump rod embodiment. It does not appear to include the tube and float presently being claimed.

[0031] FIG. 3 depicts an exemplary embodiment of the invention wherein the transport pipe also serves as the pump rod. In this illustration, material 324 preferably remains in the well while material 322 is removed. A windmill or other power source can be attached to an upper portion 302 or pipe 304. A lower portion 306 of pipe 304 can transport material being removed. A conduit 308 attached to pipe 304 can carry material to a containment object. An over flow tube 312 can be included to provide for release of excessive material accumulating in the system. A pipe cap 314 may also be included to seal the system.

Non-Elected Claims

This application contains claims **16-23** (Claim 4 could possibly be rejoined) drawn to an invention nonelected. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Response to Arguments

Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
